

Index of the reference signs

interface 1
top-part 2
bottom part 3
stop-break bar 4 with poles
screws 5
round fixing-ground-plate 6 (with 4x4 or 3D Norm)
stop (housing) 7
cross-shaped opening 8
round fixing-ground-plate 10
screw 11
star-shaped grooves 12 of the fixing-ground-plate
openings 13 of the spring box
star-shaped grooves 14 of the spring box
engaging element or spring box 15 of the release-mechanism
clamping mechanism or adapter 16 of the release-mechanism
thread winding holes 17
release-mechanism 18
inserts 19
power springs 20
frame 21
pin 22 with round shaped endings
holes respectively housings 23
pressure plate 24
screw 25 with ring in the thread 25 b
pressure plate 26
fixing frame 27 or u-profile
turn able groove plate 28
fixed groove plate 29
u-lever 30
axis 31
butterfly shaped release trough 32
hole 33 for a spring in the turn able groove plate 28
plate spring 34
central hole 35 in the spring box 15
insert 36 of the fixing-ground-plate 10
loop 37
turning-clapping lever 38
(alpha-numeric- or bar-) code 39
Internet-list 40 of the alpha-numeric- or bar- code 39
suspension plate 41
joint 42 of suspension plate 41
rubber rings respectively spacer washers 43 as damping means
toe fixing wire 44
heel fixing wire 45
screw 49
spring power balance 50
wire 51
kink 52
opening 54 for stop break bar 4
long shaped interface plate 55

central enlargement 56 for the release mechanism 16
 fixing or mounting means 57 and 58
 parallel long-holes 59
 toe mechanism 60
 u-clamping profile 61
 heel mechanism 62
 stop-break turning point 70
 stop hook 71
 multiple holes 72
 ring 76
 opening 77
 conic shaped borders 78
 frame of opening 79
 long-holes 80
 central 3D pattern 81
 top right hole 82
 4x4 pattern 83
 high-back 90
 axis 91
 move able tapes 92
 fixing hook 93
 adjustment screws 99
 lock 100
 pring box 101
 pins round head 102
 release lever 103
 axis 104
 hole or opening 105
 hole for touring binding pins 106
 power plate 107
 wing 108
